

Collaborate, Customize, and Implement Software Solutions

**Join the local public health departments,
have your voice matter and create the
software that's right for you.**

- Community and Client Based Time Tracking.
- Eliminate paper through scanning and importing directly to your client's record.
- Assign cases and track referrals.
- Alerts to nurses for client check-in, new services and reminders when tasks are due.
- At a glance view of all your client's encounters.
- Master calendar with nurse activities, clinics and events.
- Scheduling for multiple clinic types and locations including no show and cancellation alerts.
- Letters and forms with key fields populated as client demographics and results.
- Track short services with outcome reports such as Radon, SHARPS and Lead tests.
- Flexible and fast ways to chart. Option to share formats or develop your own.
- Easy, accurate billing of services to insurance carriers.
- Save time with integration to Immunization Registries and Electronic Disease Surveillance Systems.

"We have increased our revenue capabilities..."

"Software Expressions has been extremely accommodating in establishing our electronic health record to meet our unique needs for our department. The program provides adding a community to our service area for ease of reporting."

– Jackie Ove

Public Health Administrator/Health Officer for South Milwaukee/St. Francis Health Department

"Implementing a brand new electronic health record system while also working on accreditation completion and during a world pandemic wasn't an easy task. Software Expressions Inc. made this process easy. They understand Public Health and can anticipate our needs. I have been overly impressed by the one on one relationship and dedication Software Expressions provides for our needs in Fond du Lac County."

– Kim Mueller, RN, MSN

Health Officer, Fond du Lac County Health Department
