

**June 19, 2019**

To Whom It May Concern,

I am a currently retired Practice Manager for an 80 employee independent Dermatology Practice in the greater Milwaukee Area. I have been with this practice for 32 years.

I am writing to highly recommend Software Expressions for your software needs. Our practice has worked with Anne Vik and her organization for over 10 years.

Throughout these many years Anne has implemented their system and has helped organize and transition our busy practice from paper to electronic scheduling and billing. Even though we went to an EMR system, we chose to keep her schedule and billing system as it runs seamless. There isn't anything it can't do!

Working with Anne and her innovative spirit has made her our go-to expert for all of our projects. She will try to help in anyway... is always accessible....detail-oriented, organized...a gem to work with.

I recommend Anne and her group for any role through which she can contribute her remarkable creativity and dedication. If hired, I am confident that she would make your department a smooth working machine.

Please feel free to contact me at any time. I have stepped down from my position, but I am still helping out in the insurance department.

**Regards,**

Kathy Notheis
